DETAILED ACTION

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings are unclear, and computer generated drawing figures are preferable over hand drawn figures. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Specification

The disclosure is objected to because of the following informalities:

It is suggested that in:

Line 5 of the Abstract, before "...the collar...", delete "and".

Appropriate correction is required.

Claim Objections

Claim 5 is objected to because of the following informalities:

It is suggested that in:

Claim 5, line 1, delete "tot" and insert --to--.

Claim 5, line 2, delete "eh" and insert --the--.

Appropriate correction is required.

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: The specific limitations of "...a collar operatively secured to the tap, the collar being slightly smaller than the counterbore to enable slidable movement and to prevent rotation of the tap relative to the handle; a retainer secured to the handle at the first end to retain the collar in the counterbore and having a central opening receiving the tap; and biasing means in the counterbore for biasing the tap and the collar outwardly to extend the tap when the handle is turned to thread an opening in a workpiece..." are not anticipated or made obvious over the prior art of record in the examiner's opinion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
